MOTORCYCLE CLUTCHES

Clutches: Discs, plates & springs

Vparts discs, plates and springs have been made from the finest materials available. Through research and development, we are constantly striving to offer the best possible friction material for your motorcycle or ATV. Vparts tempered steel drive plates go through a vibratory deburring process and then are quality checked for flatness to provide optimum performance. Heavy duty Vparts clutch springs are pre-set, shot-peened, and heat treated for performance and durability.
